

EL632/G+ sound module with camera

Reference: EL632/G+
Product code: 12325632
EAN code: 8429898020525

Main characteristics

- For Nexa push buttons or coded door panels.
- Digital IP "G+" installation with TCP/IP protocol.
- Adjustable camera (15°) with wide-angle camera and LED lighting controlled by digital image processing.
- Privacy on audio, video and door open progresses.
- Message broadcasting (language selectable) and coloured icons acknowledge the system status (call in progress, in communication, lock is activated or the system is busy).
- Connection to push button modules using small flat cables provided with the modules.
- Opening of two different doors from the same panel.
- Removable terminal connector for easy wiring.
- Includes two push buttons.

Additional information

The necessary components for a system of these characteristics are:

- Use one EL632/G+ video module per panel.
- In compositions with more than 2 pushbuttons, add one EL610D 10P module for every 10 pushbuttons until the desired number of pushbuttons is obtained (max. 132 pushbuttons).
- Add one FA-G+ power supply unit for every 8 devices (outdoor panels, monitors...).
- Make the distribution to the different devices using D4L-G+/PoE distributors with four outputs.
- For distribution of the devices in IN/OUT to use injectors DCP/G+, accompanied of power supply FA-DC48/G+ and switches of Ethernet DCS/G+ in monitors.
- Choose ART 7/G+ video units or ART 7W/G+ units with integrated wifi to receive calls through the free G2CALL app (available for Android and IOS).
- Add ART 7/G+/PCM video units and ART 7W/G+/PCM if you want the indoor unit to have a PCM/G+ private call panel.
